We are extremely happy with our Shirobliss Elite. Only wish we had purchased one sooner. It's ease of use, setup and cleanup, compactness and portability, is unmatched in any other unit we have used. Kudos to Rick for such a beautiful and thoughtful design.

ShiroBliss Thanks so much Bill! I trust the system will serve you for many years. Will you use it at <http://www.ayurvedaology.com/> or just on your 3-year old (!!) and wife...(loved the picture...)

I have owned the ShiroBliss system since 2016 and it has worked perfectly and made a difference in so many people's lives. The heating/pumping mechanism makes all the difference in providing a comfortable and deeply healing Shirodhara experience. It's easy to use, light-weight/portable and clean up is fairly easy. In addition to the wonderful design, Rick goes above and beyond to provide outstanding customer service. I cannot recommend the ShiroBliss system enough. Thank you for providing such an amazing product, it's a gift to the Ayurveda community! 🙏

January 27, 2018 ·

I am happy to report that I have now done 10 Shirodhara treatments using the machine and I am in LOVE. This purchase was absolutely money well spent. If I were trying to offer these treatments at this pace without it, I would be driving myself mad. With the machine, I am able to control the temperature and manage the oil. Clean up is comparatively quick and easy. The presentation to clients is clean and professional looking. And I am able to incorporate other elements like es... [See More](#)

I have used several different shirodhara systems and have been dying to try the ShiroBliss system since I have several friends who own one and love it. I am now working with a spa in West L.A. that uses it. I am in heaven. It is easy to use and clean and truly allows me to be present and relaxed with my clients, allowing THEM better results. Thank you, Rick, for taking the time to design a system that supports true healing.

I love my ShiroBliss! It is small and tucks away in the corner of my office and when it's time to give a shirodhara, it's already to go, easy and convenient. This system is silent, reliable, beautiful, and keeps the temperature set at whatever I choose. I've never had any problems with it! I feel so fortunate to own one. It works so well, I don't ever foresee having to replace it. Thank you Rick for everything!

ShiroBliss Kim, I'm tempted to post a picture of your early version ShiroBliss for historical context! Version 2 serial number 16! Made in 2010. We are now up to version 7+. The fact that yours is functioning so well, while typical, is a source of great re-assurance. One of my design/construction principles is "I never want to see this system again" (...meaning, for repairs)

Like · Reply · 1y

Kimberly Kinjo Post away! Do you have a pic of it? It already looks so much better with the upgraded bowl and tubes you put on for me.

I have done some pretty extensive research on automatic shirodhara machines and found that ShiroBliss is in a class all of its own. The craftsmanship, quality of the materials, silent operation, temp control, and easy clean-up are just a few pros this machine offers. I couldn't be more happy with my V7.

ShiroBliss Thanks Jade! Wonderful meeting you at NAMA. It is deeply satisfying to provide you with a tool you can use to help so many others...

I LOVE my ShiroBliss! It's so much easier to use than anything else and I really like the convenience of the special ShiroBliss head rest. I love that it's light and portable and is super easy to set up and clean. I have one of the earlier versions and although it still works well, I'm tempted to get an upgraded version. Thank you for making such a great product! – Michelle Magid, Vibrance Ayurveda, Portland, Oregon

ShiroBliss It is gratifying to hear about older units still serving so well. You bought a version 5 system back in 2013, and I was able to do some upgrades to it in 2015. Those were important changes, but let me consider what more we can do.

I have owned my ShiroBliss since 2013 and I LOVE it! It delivers a very quiet, temp controlled, constant stream of oil for my clients. You can have the stream set very still or you can cross it back and forth over the forehead using the pivoting arm. I have had to administer shirodara by hand when visiting in India and each time, I really missed the ease and control of my ShiroBliss! Great, well made, well designed product!

The ShiroBliss Shirodhara System is by far, the best investment I made in my home-based business, Blue Mountain Sanctuary, where I offer ayurvedic therapies. My clients love the quietude and the attention I'm able to give them while the ShiroBliss System does the rest of my work. The temperature is steady, the cleanup is minimal, and I just love giving Shirodhara to my clients with it. The ShiroBliss Shirodhara system fits snug in my SUV and I am able to provide home treatments to those with special needs, including health fairs and special events.

ShiroBliss ... and your coaching on how to do demonstrations at conferences encouraged me to try it... I've done it twice now with great success. The BIG test will be at ISPA. I figure worst case scenario: I lay under the stream in an ongoing demo while my team works the crowd! Great to hear that you are "living the dream" www.bluemountainsanctuary.com

We have been loving our Shiro Bliss Shirodhara unit. After 16 years of performing shirodhara in the manual way, we have been LOVING the simplicity and ease of our Shiro Bliss. It is absolutely quiet and it keeps the oil at a consistent and perfect temperature. It has been the best investment to our clinic in 18 years. A true work of art, this unit is!!!

"I highly recommend ShiroBliss. It is very apparent that much thought went into creating a product that is user friendly, effective and attractive. Our therapists, clients and students love it" -Marisa Laursen, Lead Faculty and former Director of the Ayurvedic Spa & Healthcare Center at the California College of Ayurveda

ShiroBliss Thanks Marisa. I'm proud (!) that all the heads of your healthcare center have used ShiroBliss since the very first version. Amarnath Matthews was very supportive early on in my efforts. <http://www.ayurvedacollege.com/>

I was always a strong believer in the hand poured method of Shirodhara, until I used the shirobliss machine. It is beautiful, quiet, keeps the temperature just right and is really easy to use. I find I can hold a deeper meditative state while giving shiros instead of constantly worrying about oil temperature and pouring.

ShiroBliss Well, actually you have six! Not counting the two at Miraval Monarch Beach Resort! You have been using these since 2012 "day-in-and-day-out" and are definitely the most used systems out there. But still serving!! www.miravalresorts.com www.monarchbeachresort.com/

The unit is outstanding and I have had clients who have had traditional shirodhara who comment on how clean and quiet it is. There was no issues with shipping to New Zealand and communication was superb right through the process.

ShiroBliss

ShiroBliss I think my most enthusiastic clients are those who have experience with manual shirodhara methods - including my wife. She tells great stories "...then I noticed the oil was pouring onto the floor" but not ones she wants to experience again! Now I have a chance to come to NZ and write it off as a business trip! Your purchase brought me up to SEVEN countries!
